

Tandridge District Council - Buildings of Character (November 2013)

Although local Buildings of Character cannot be given the statutory protection afforded to listed buildings, the Council will seek to keep them wherever possible. The list can never be definitive as buildings may be added from time to time and the Council reserves the right to add to this list.

Many of the Buildings of Character were added to the list before the Council adopted criteria for identifying such buildings and most of the buildings have not been reviewed against the criteria. Therefore if an owner has concerns about the inclusion of a building a request can be made to the Council to review it against the criteria.

Multiple entries on the list can occur where there is more than one building on a property, for example a group of farm buildings.
